Release Date: 03/09/2012  Expiration Date: 03/09/2015

OBJECTIVES:
1. Explain the rationale for testing radiopharmaceuticals for radiochemical purity.
2. Explain the principles of radiochemical purity testing using ITLC
3. List types of stationary (solid) phase materials as well as the care, storage, and use of each.
4. List types of mobile (solvent) phase materials as well as care, storage, and use of each.
5. Explain proper strip preparation and labeling.

Continuing Pharmaceutical Education: The University of New Mexico Continuing Education Program is approved by the Accreditation Council for Pharmacy Education (ACPE) as a provider of continuing pharmaceutical education. UAN 0039-0000-12-006-H01-P has been assigned to this Knowledge based program for Pharmacists. This program provides a total of 1.0 contact hours (.1 CEUs) of continuing education credit. Participants must complete all requirements as outlined on the course page to qualify for credit.
