

We automatically report your course completions hours to CE Broker, the tracking system for the FL Dept of Health

Automatically Reports
To CE BROKER

What does this mean for you?

Florida is the only state that exempts licensees from the DOH audit if their continuing education requirements have been fulfilled before the license expiration date.

Take all of your courses with us and we can help you avoid the DOH audit.

Use the FREE iPhone App from CE Broker to check your compliance status. It will tell you immediately whether your records are complete at any given moment.

Not sure what else you must complete?

You can subscribe to CE Broker or use a Free 7-Day Trial to see which of your requirements are still not met. Then come back to us and we'll help you find a course to fulfill the rest.

CE Broker iPhone App

Track your continuing healthcare education with the CE Broker app.

Available on the
App Store
